- Ingestion** : Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if unconscious.
- Indication of Immediate Medical Attention and Special Treatment Needed** : There is no specific antidote. Treat symptomatically.

5. Fire Fighting Measures

- Extinguishing Media** : Use water spray, foam, dry chemical or carbon dioxide extinguishing agents.
- Specific Hazards Arising from the Chemical** : Like most organic powders or crystals, under severe dusting conditions, this material may form explosive mixtures in air.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing.

6. Accidental Release Measures

- Personal Precautions** : Isolate hazard area. Keep unnecessary and unprotected personnel from entering.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Keep material out of lakes, streams, ponds and sewer drains. Clean up spills immediately.
- Methods and Materials for Containment and Cleanup** : Use a wet sweeping compound or light spray of water to prevent dust formation. Sweep up and shovel into suitable containers for disposal. Clean and neutralize spill area, tools and equipment by washing with bleach water and soap. Absorb wash water and add to the collected waste. Waste must be classified and labeled prior to recycling or disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Use only outdoors or in a well-ventilated area. Avoid release to the environment. Keep away from heat, sparks and flames. Avoid breathing dust. Avoid contact with eyes, skin or clothing. Wash hands thoroughly after handling. Wash clothing after use. Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Conditions for Safe Storage** : Store in original container only. Do not contaminate water, other pesticides, fertilizer, food or feed in storage. Store in a cool, dry place. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.

8. Exposure Controls / Personal Protection

- TLV/PEL** : No TLV/PEL for ingredients in this mixture.
- Appropriate Engineering Controls** : Use only with adequate ventilation.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
