

Agricultural Liquid Nutrient

Guaranteed Analysis:

Magnesium (Mg).....7%
7% Water-soluble Magnesium (Mg)
Chlorine (Cl).....22%
Derived from magnesium chloride
F2373 CAS # 7786-30-3

Product Description: CHLORI-MAG[®] is an efficient source of chloride and magnesium nutrients naturally produced from the Great Salt Lake by evaporation. CHLORI-MAG[®] is a tan to light amber liquid with a density of approximately 10.8 pounds per gallon at 68° F.

General Use and Application Recommendations:

Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

Warranty Disclaimer:

Seller warrants only that this product (i) conforms to the chemical disposition set forth above and (ii) is reasonably suited for the labeled use when all precautions and directions for use stated herein are strictly followed. This limited warranty does not extend to, and buyer assumes all risks of, using this product contrary to label instructions, under abnormal conditions or other conditions not reasonably foreseeable to seller. Seller makes no warranty of merchantability or fitness for a particular purpose or any other express or implied warranties or claims to buyer except as expressly set forth herein. Seller shall not be liable for special, indirect, incidental, or consequential damages.

Caution:

Not intended for food, feed, or drug use. Intended as a nutrient source for agricultural use or for non-food industrial uses. Keep out of reach of children. Observe good industrial hygiene practices. Wash hands after handling. Store away from incompatible materials. Dispose of waste and residues in accordance with local authority requirements. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
