CNI AGRI-OIL

Crop Oil Concentrate

NET CONTENTS: 2.5 GALLONS (9.46L)

CNI AGRI-OIL

Crop Oil Concentrate

PRINCIPAL FUNCTIONING AGENTS	
Paraffin base petroleum oil	
Alcohol ethoxylate blend	1
TOTAL	
All ingredients are approved for use under 40 CFR 180	

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENT

Warning: Causes eye irritation. Causes mild skin irritation. May be harmful if swallowed or inhaled. Wear protective gloves, protective clothing, and eye and/or face protection. Wash hands, face, and other affected areas thoroughly after handling. Do not eat, drink, or smoke while using this product. If eye or skin irritation occurs, seek medical attention.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Wear protective eyewear, chemical-resistant gloves, long-sleeved shirt, pants, socks and shoes. If ventilation is inadequate, a respirator is recommended; protect against spray mists. Take into consideration all working conditions and all chemicals to be handled or processed.

FIRST AL

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person rinse mouth and sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do continue rinsing. If irritation persists, seek medical attention. If 0n Skin 0r Clothing: Immediately take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. If skin irritation occurs, seek medical advice/attention. Call a poison control center or doctor for treatment advice.

If Inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor is you feel unwell. If person is not breathing, call 911 and give artificial respiration.

GENERAL INFORMATION

CNI AGRI-OIL is a superior blend of highly unsulfonated paraffinic oil and premium quality surfactant. CNI AGRI-OIL is designed for use with a broad range of pesticides where an oil concentrate is recommended. This blend increases contact activity, enhances penetration and provides even coverage of the leaf surface.

CNI AGRI-OIL will increase the activity of pesticides and enhance performance. Therefore, care must be taken in treating crops during periods when plants are subjected to drought stress, high temperatures and high humidity.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using CNI AGRI-OIL, the applicator or crop advisor must have experience with the pesticide combination, including CNI AGRI-OIL, or must have conducted a phytotoxicity test. Do not use this product in a manner inconsistent with labeling. CNI AGRI-OIL increases the activity of many pesticides; therefore, care must be taken when treating sensitive crops during periods of drought stress, high temperatures or high humidity.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND AND RIGHTS-OF-WAY. NOT FOR AQUATIC USE.

ISE RATES

General Use Rate: Apply 1 to 2 pints per acre.

 $\mbox{\bf Use: 8-16}$ ounces per acre with fungicides in Peanuts, Pecans and Pome and Stone Fruits

Non-Crop Use: 1 to 4 pints per acre

'Use the higher rate when weeds are under weather stress or at the maximum labeled size for control. Or apply 1.0% v/v (I gallon of CNI AGRI-OIL per 100 gallons of spray solution) per pesticide label recommendations.

²Use higher concentrations for lower water volumes.

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

- 1. Compatibility agent and/or antifoam, if needed
- 2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants
- 3. Dry soluble and suspension fertilizers / micronutrients
- 4. Liquid drift retardants and flowable formulations (F & FL)
- Liquid concentrates, suspension concentrates, microencapsulated and capsule suspension (LC, SC, ME, CS)
- Emulsifiable concentrates (E, EL or EC)
- 7. Solutions and soluble liquids (S or SL)
- 8. Liquid micronutrients and fertilizers
- Water conditioners and other adjuvants (COC, HSOC, MSO, NIS)
- 10. Finish filling to desired spray volume level and continue agitation

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

STORAGE AND DISPOSAL

Do not use, spill or store near heat or open flame. Keep container closed tightly when not in use. Prevent water from being introduced to the contents of this container. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with those directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
