**Product Code:** 13266

#### GUARANTEED ANALYSIS

Total Nitrogen (N).....	8.0%
8.0%.....Nitrate Nitrogen	
Calcium (Ca).....	10.0%
Derived from: lime, nitric acid	

**PRODUCT INFORMATION:** EEzy Cal 10% is a true solution that works in the field by providing calcium in an immediately available form for plants. Calcium is an essential nutrient for plant growth. Plants use calcium directly in their cell structure and as a buffer for other elements that are absorbed by the plant. Calcium in an available form aids in freeing up other calcium and nutrients in the soil.

**DIRECTIONS FOR USE:** Use in accordance with recommendations of a qualified individual/institution.

**Soil Application:** Apply in-furrow, 2x2, or at sidedress or topdress. Do not apply directly on the seed in saline, alkali, or coarse textured soils.

**Foliar Application:** Fill spray tank with water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when crop is excessively stressed for moisture or during periods of high temperatures. Use of a surfactant may enhance leaf coverage and increase nutrient absorption.

**RECOMMENDED RATES:** This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season (gallons per acre) in the absence of soil and/or tissue analysis.
