4% Soluble Zinc (Zn)	

Derived from: Iron sulfate, Zinc sulfate, and potassium hydroxide.

Directions for Use

This product can be used for correction of iron deficiencies in field crops, specialty crops, and ornamentals. For best results apply Soileos[®] directly to the soil with the seed or blended/incorporated into soil or potting media. The product may be blended with NPK or other fertilizers. Excessive quantities or incorrect use of this product may cause damage to plants. Store Soileos[®] in a secured, cool, and dry location.

The recommended application rate of Soileos[®] is 10 lbs/acre (11.2 kg/ha) or as directed by a qualified professional. Application of this product should be based on soil test and/or tissue analysis results.

Soileos[®] only needs to be applied once per season.

Caution

NOT CLASSIFIED AS HAZARDOUS (WHMIS 2015). This fertilizer should be used only as recommended. It may prove harmful if misused. Keep out of reach of children. Wash thoroughly skin after handling.
