GENERAL INFORMATION

FoliMar™ Nutros is a foliar-applied liquid fertilizer that is designed to provide nutrients that may be deficient in the soil or plant. Application should be made based on soil and/or plant analysis.

DIRECTIONS FOR USE

All rates should vary based on the severity of soil and plant tissue deficiency and degree of weather extremes.

FOLIAR APPLICATIONS

FoliMar™ Nutros is generally compatible with most NPK foliar nutrients and pesticides. Tank mix compatibility is impacted by water quality which may vary by location. Do NOT tank mix with Phosphate fertilizers unless agitation is available. When mixing FoliMar™ Nutros with other materials, always establish compatibility using a standard quart jar method prior to mixing. Shake, stir, or swirl contents before using. Always add this product to the spray tank before adding pesticides.

AVOID foliar applications to deciduous tree crops during bloom. FoliMar™ Nutros should be applied in the late evening or early morning. Do NOT spray in the heat of the day. Do NOT spray when the plant is under moisture stress. Use as fine of a spray mist as possible. Do NOT spray to the point of run off. Allow 3-4 hours after application before sprinkler irrigation to avoid washing the product off.

For All Crops: Apply rate of 1-4 pints per acre. Repeated applications may be required. Wait at least 10 to 14 days before reapplying.

SHAKE WELL BEFORE USE. DO NOT STORE BELOW 40°F (5°C)

COMPATIBILITY

Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products, "Jar Test" proportionally mixed components to confirm compatibility. When blending with other products, trial blends should be conducted before beginning large scale mixing. When blending with other pesticides and fertilizers, the sequence should be as follow: water, pesticide, fertilizer, micro-nutrients.

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
