## High Uptake Nutrient

**FARMERS  
FIRST™**

### GUARANTEED ANALYSIS

Total Nitrogen (N) .....	30.0%
10.0% Ammoniacal Nitrogen	
10.0% Nitrate Nitrogen	
10.0% Urea Nitrogen	

**Derived from:** Urea and Ammonium Nitrate

### ALSO CONTAINS NON PLANTFOOD INGREDIENT(S)

#### Soil Amending (Active) Ingredients

Organic Matter .....	12.0%
----------------------	-------

**Derived from:** Leonardite

#### Total Other (Inert) Ingredients

Proprietary Ingredients .....	6.0%
Inactive Substances .....	52.0%

### KEEP OUT OF REACH OF CHILDREN

#### WARNING

#### HAZARD AND PRECAUTIONARY STATEMENTS:

May be harmful if swallowed. This product should be kept out of reach of animals. Do not eat.

#### ENVIRONMENTAL PRECAUTIONS:

Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

#### PERSONAL PROTECTIVE EQUIPMENT (PPE):

Use standard protective clothing and equipment including gloves, and eye and face protection. Consult the SDS for further information.

#### FIRST AID:

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If On Skin or Clothing:** Take off contaminated clothing and wash it before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR, OR GOING FOR TREATMENT.**

**FOR HAZARDOUS MATERIALS OR DANGEROUS GOODS INCIDENTS ONLY (SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT), CALL CHEMTREC AT 1-800-424-9300.**

#### GENERAL INFORMATION:

**Functions:** Carbon rich nitrogen source, high availability & uptake, non-salt forming, reduced use rate, low phytotoxicity, reduced leaching & volatilization

**Inhabit N** is highly available source of nitrogen source for either soil or foliar use. **Inhabit N** contains is a micronized oxygen rich carbon source, derived from a unique deposit of leonardite, which may aid in the uptake of nutrients and may improve soil vigor and function. In addition, **Inhabit N** has low salt content, has reduced risk of leaching and volatilization, and enables high uptake through reduced use rates.

#### DIRECTIONS FOR USE:

Read all label directions carefully before using this product. This product is intended for use in all soils and crops.

Results are best when applied directly in the root zone or on the leaf surface. Product must be diluted with water in a ratio of at least 20 parts water to 1 part product prior to foliar application. Do not foliar apply this product in concentrations greater than 5%. Apply with enough water to ensure uniform coverage without running off leaf surface.

Do not foliar apply this product during the hottest time of the day or to plants under drought or flood stress.

Do not exceed the recommended application rate for this product. Do not apply this product undiluted.

## High Uptake Nutrient

### TIMING & COMPATIBILITY:

For Soil and Foliar Application

Pre-Plant	Good Performance
In Furrow	Best Performance
Pre-Emerge	Best Performance
Early Vegetative	Best Performance
Late Vegetative	Best Performance
Early Reproductive	Good Performance
Late Reproductive	Good Performance
Post-Harvest	Not Recommended

Herbicide	Compatible
Fungicide	Compatible
Insecticide	Compatible
PGR	Compatible
Liquid Fertilizer	Compatible
Other Nutritional	Compatible

*Inhabit N is compatible in solution with most common tank mixes. Not every combination has been tested and some mixes may be incompatible. JAR TEST RECOMMENDED prior to use.*

### SHAKE WELL BEFORE USING

### USE RATES:

Due to the improved uptake and availability, *Inhabit N* can typically be used at lower rates when compared to conventional UAN. *Inhabit N* can be used as either a replacement to conventional products or in combination.

*Inhabit N* contains a conveniently pre-mixed carbon source. Additional carbon sources or humates are not required but may be added as desired.

Inhabit Boost can be added at a rate of 16 - 32 fl oz. (475 – 950 ml) per acre, which is a highly compatible alternative to other liquid humic substances to further increase nutrient uptake.

Catalyst ADV may also be added at 16 to 32 fl oz. (475 – 950 ml) per acre to provide a complex nutrient source to increase nutrient availability.

### *Inhabit N* Per Acre Use Rate

Application Type	All Crops
Foliar Broadcast	2 qt. to 2 gal (1.9 - 7.6 L)
In Furrow/Banded/Sidedress	1 to 10 gal (3.8 – 38 L)
Soil Broadcast	1 to 20 gal (3.8 – 76 L)

Rates are general. To address crop specific needs or deficiency issues consult with an agronomist.

### MIXING INSTRUCTIONS:

Always start with equipment that has been thoroughly cleaned. Fill the tank with at least 50% of the final carrier volume unless

otherwise stated on the specific product label. While the carrier is agitating, add tank mix ingredients in the following order:

1. Antifoam and / or compatibility agent
2. Dry formulations (WP, DF, WDG, SG, SP) and ammonium sulfate
3. Flowable formulations (F & FL), liquid concentrates or suspensions (LC, ME, SC, CS)
4. Emulsifiable concentrates (E or EC)
5. Add *Inhabit N* and other soluble liquids (S or SL) from low pH (<1.0) to high pH (>14.0)
6. Surfactants, water conditioners and other adjuvants
7. Finish filling and continue agitation

### STORAGE AND DISPOSAL:

**Storage:** Store this product between temperatures of 50 °F (10 °C) and 90 °F (30 °C). Store in a cool, dry place and out of direct sunlight. Do not store diluted product. Stable under recommended storage conditions.

**Disposal:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations. Recycling decontaminated containers is the best option of container disposal. Visit [www.acrecycle.org](http://www.acrecycle.org) for the recycling program nearest you.
