

# No Suds™

## ANTIFOAMING AGENT • DEFOAMING AGENT

### PRINCIPAL FUNCTIONING AGENTS:

Dimethylsiloxane polymer and Silicon dioxide .....	10.00%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT: .....	90.00%
TOTAL:.....	100.00%

### PRODUCT INFORMATION

No Suds™ is designed to reduce foam structures caused by the addition of various products in a tank mix solution. Use of this product in a typical spray application will help dissipate the foam evenly and prevent lost time caused by the buildup of foam in the spray tank. Adding it to the tank first, can help prevent any foam from forming in the tank. For use with tank mix partners labeled for agricultural, forestry, industrial, and non-cropland sites; not for aquatic use.

### DIRECTIONS FOR USE

Read and follow the pesticide label for proper timing, rates, specific directions and any special use precautions. Use this product in accordance with the instructions found on the pesticide label regarding adjuvants. It may be applied by ground, aerial and any other type of spray equipment recommended by the pesticide label. In the absence of specific instructions, follow the recommendations below which are considered adequate for most uses.

**RECOMMENDATIONS:** Optimum use rates can be affected by conditions of application such as vigorous agitation, water hardness, application method, equipment, spray droplet size, spray nozzle selection, or characteristics of the active ingredient. Therefore, carefully observe spray mixture and adjust rate accordingly to ensure adequate defoaming.

Use	Rate per 100 gallons of spray mixture
Antifoam/Defoam	Up to 2 fl oz

**MIXING:** Shake well before use. Fill spray tank 2/3 full of water and begin agitation. Add tank mix partners, starting with water conditioner, as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, and (5) Emulsifiable concentrates. Continuous agitation of finished spray is recommended throughout the spray operation. If spray solution has been allowed to stand, thoroughly remix before application. For best results, apply within 24 hours after mixing.

**COMPATIBILITY:** No Suds is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

### KEEP OUT OF REACH OF CHILDREN PRECAUTIONARY STATEMENTS

Based on currently available data, this product is not classified as a GHS hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. Refer to the Safety Data Sheet if first aid instructions are needed.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store in original container only and keep tightly sealed when not in use. Store away from incompatible materials. Do not allow this product to freeze.

Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading and add rinsate to spray tank. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at [www.agrecycling.org](http://www.agrecycling.org). Decontaminated containers may also be disposed of in a sanitary landfill in a manner allowed by local, state and federal laws and regulations.
