Guaranteed Analysis

Total Nitrogen (N)	3.00%
1.20% Nitrate Nitrogen	
1.80% Urea Nitrogen	
Calcium (Ca)	5.00%
Magnesium (Mg)	1.00%
Manganese (Mn)	0.31%
Zinc (Zn)	0.31%

Derived from: Calcium Hydroxide, Magnesium Nitrate, Manganese Nitrate, Zinc nitrate, and Urea.

GENERAL INFORMATION

NUE Cal-Mag Plus is a concentrated mixture of nitrogen fertilizers with calcium, magnesium, manganese and zinc in a soluble form.

DIRECTIONS FOR USE

Mixing Directions

1. Be sure spray tank is thoroughly cleaned.
2. Fill 1/2 full with clean water and start agitation.
3. Add other nutrients if compatible.
4. Add NUE Cal-Mag Plus and continue agitation.
5. Adjust pH if necessary.
6. Add pesticides if compatible.
7. Fill tank and agitate thoroughly.

Compatibility - NUE Cal-Mag Plus is compatible with most pesticides.

WARNING: NUE Cal-Mag Plus may LOWER the pH of the spray solutions. If desired, raise pH by adding NUE Cal-8. When tank mixing NUE Cal-Mag Plus with pesticides requiring specific pH ranges, always follow pesticide label directions.

NUE Cal-Mag Plus can be blended with other liquid fertilizers. Always conduct a jar test before mixing with other fertilizers (i.e. phosphate). If any precipitation occurs, it may be necessary to add a compatibility agent. Consult your Bio-Gro dealer for more information.

CAUTION: Tank mixes with copper based fungicides can be toxic due to increased solubility of copper. Application of this product with copper fungicides or any other low pH sensitive product is not recommended.

SUGGESTED APPLICATIONS

NUE Cal-Mag Plus can be used on crops where foliar, fertigated or soil applied fertilizer are required. Consult your Bio-Gro dealer for specific recommendations.

Foliar Applications:

NUE Cal-Mag Plus can be applied by ground, or air equipment. Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

Do not apply foliar applications of NUE Cal-Mag Plus under poor drying conditions or in excess heat.

Field Crops: Apply 1 to 8 quarts per acre as a directed foliar spray during periods of rapid growth or nutritional demand once plants have reached 4-8 inches in height. NUE Cal-Mag Plus may be applied at 10 to 14 day intervals.

Vegetable Crops: Foliar 1-8 quarts per acre. Apply NUE Cal-Mag Plus as needed throughout vegetative development and/or during rapid fruit growth.

Tree and Vine Crops: Apply 2 to 8 quarts per acre from bud swell to harvest. Repeat applications may be made in 10 to 21 day intervals.

Berry Crops: Apply 2 to 8 quarts per acre of NUE Cal-Mag Plus after active vegetative growth begins. Applications may be repeated in 7 to 14 day intervals. Dilute spray in at least 100 gallons per acre of water.

Fertigation Application:

All Crops: NUE Cal-Mag Plus may be applied by fertigation through micro or overhead irrigation systems. Apply at 1-5 gallons/acre.

Soil Applications:

Sidedress/Banding/In furrow: Apply at 1-5 gallons/acre of NUE Cal-Mag Plus to the soil. Avoid direct contact with fertilizer sensitive plant parts.

CONDITIONS OF SALE

Seller and/or manufacturer warrants only that this product consists of the ingredients specified on this label. No one is hereby authorized to make any warranty and/or guarantee concerning the use of this product. Being that the use, timing, placement, rate, application and other conditions are beyond the control of the seller and/or manufacturer, the seller's and/or manufacturer's liability for handling, storage and use of this product is limited to replacement of product or refund of purchase price.
