GENERAL INFORMATION

Plant-X Soil Bios is a mixture of biosubstances (humic acids, amino acids, organic acids, amines, sugars and vitamins) derived from a fermentation process of live plant extracts. Plant-X Soil Bios is designed for direct soil and/or water run applications.

Plant-X Soil Bios does not contain any animal byproducts or composted organic matter.

DIRECTIONS FOR USE

It is recommended to shake, stir or agitate containers or tanks of Plant-X Soil Bios just prior to usage.

Mixing Directions - Be sure spray tank is thoroughly cleaned, fill 1/3 full with clean water, add product and continue filling with agitation.

Compatibility - Plant-X Products are compatible with most fertilizers and bioproducts. Consult your BioGro dealer for more information.

Use this product (preferably blended with liquid nutrients) during periods of rapid root development.

SUGGESTED APPLICATIONS

Optimum rate of application will vary between fields depending on soil and/or climatic conditions, stage of crop growth and size of plants.

Soil Apply and or water run 5-15 gallon per acre applications at planting and in 7-10 day intervals during the growing season. Apply minimum 50 gallons per acre per season. Consult your qualified Bio-Gro, Inc. agronomist for more crop and soil specific recommendations.

Plant-X Soil Bios is not a fertilizer product or a replacement of plant nutrients. It is designed to be used in conjunction with a agronomically sound fertilizer program.

Consult your BioGro dealer for specific recommendations.

KEEP OUT OF REACH OF CHILDREN

CAUTION - Harmful if Swallowed

Precautionary Statements: Harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. In case of contact, immediately flush eyes and/or wash skin with plenty of fresh water for at least 15 minutes.

Do not contaminate feed or food items.

Only apply this product on crops specified on this label. Use caution in application to assure coverage on intended treatment areas only.
