

SOURCE DC improves the soil environment to support plant growth by stimulating the native microbiome. SOURCE DC can be applied as a foliar spray and is compatible with a wide range of herbicides and fungicides. Read and follow all label directions before using this product.

GUARANTEED ANALYSIS

**CONTAINS NON PLANT FOOD
INGREDIENT(S):**

ACTIVE INGREDIENT

13.5% MALTOL LACTONE

OTHER INGREDIENTS

86.5% DIALKYL LACTAMIDE

Net Content: 128 oz (1 gallon) Net Weight: 8.98 lbs (4.08 kg)
Density: 8.98 lbs/gal at 68 degrees F

FOR COMMERCIAL AGRICULTURAL USE ONLY.

APPLICATION INSTRUCTIONS

CROP: Corn, Cotton, Alfalfa, Grass Hay

RATE: 1 fl oz/ac of SOURCE DC

TIMING: Safe to apply after emergence as a tank mix with herbicide or fungicide application. Please consult your Sound representative for specific application instructions.

FOR BEST RESULTS:

- Shake vigorously
- Add to tank mix last
- Apply with 10+ gallons of water per acre for best coverage
- Use NIS (NPE free for V8-R2 applications on corn)
- Do not mix into water or solution pH>7
- Apply same day as mixing
- Avoid mixing with UAN and other high pH fertilizers
- Apply at least two hours before rain and allow to dry
