

StrongSide® Plus

SURFACTANT • HUMECTANT

PRINCIPAL FUNCTIONING AGENTS:

Polyhydric alcohol, Sodium xylene sulfonate,
and Alkyl phenol ethoxylate89.95%
CONSTITUENTS INEFFECTIVE AS SPRAY
ADJUVANT:10.05%
TOTAL:100.00%

CA Reg. No. 94100-50009

PRODUCT INFORMATION

StrongSide® Plus is a nonionic surfactant formulated to improve wetting, which is necessary for providing more uniform spray coverage on the intended target. Use of this product in a typical spray application will help reduce surface tension of the spray droplet and increase spray retention on the leaf surface. When used in conjunction with proper spray equipment selections, StrongSide Plus will help provide increased performance of pesticides when applied to agricultural, forestry, industrial, and non-cropland sites. Not for aquatic use.

DIRECTIONS FOR USE

Read and follow the pesticide label for proper timing, rates, specific directions and any special use precautions. Use this product in accordance with the instructions found on the pesticide label regarding adjuvants. It may be applied by ground, aerial and any other type of spray equipment recommended by the pesticide label. In the absence of specific instructions, follow the recommendations below which are considered adequate for most uses.

RECOMMENDATIONS: Optimum use rates can be affected by conditions of application such as water hardness, application method, equipment, spray droplet size, spray nozzle selection, or condition or size of foliage. Therefore, carefully observe spray deposition and adjust adjuvant rate accordingly to ensure thorough coverage without excessive runoff.

For pesticides that permit use of an adjuvant at a higher rate, follow instructions on that pesticide label. However, do not add this product at a rate which exceeds 5% of the finished spray volume. Use caution at the higher use rates. When applying to a sensitive crop, first treat a small area to determine if there are any adverse effects to the crop.

Use	Rate per 100 gallons of spray mixture
Herbicides Desiccants Defoliant	16-64 fl oz
Fungicides Insecticides Miticides	8-32 fl oz

MIXING: Shake well before use. Fill spray tank 2/3 full of water and begin agitation. Add tank mix partners, starting with water conditioner, as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables (4) Solutions, and (5) Emulsifiable concentrates. Continuous agitation of finished spray is recommended throughout the spray operation. If spray solution has been allowed to stand, thoroughly remix before application. For best results, apply within 24 hours after mixing.

COMPATIBILITY: StrongSide Plus is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

KEEP OUT OF REACH OF CHILDREN

WARNING: Causes eye irritation.

PRECAUTIONARY STATEMENTS

Wash thoroughly after handling.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor or going for treatment. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store in original container only and keep tightly sealed when not in use. Store away from incompatible materials. Do not allow this product to freeze.

Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading and add rinsate to spray tank. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.agrecycling.org. Decontaminated containers may also be disposed of in a sanitary landfill in a manner allowed by local, state and federal laws and regulations.
