 Iron (Fe) 0.1%
 0.1% Chelated Iron
 Derived From: Ammonium Nitrate, Urea, Potassium Hydroxide, Iron EDTA

Gordon's Tankables[®] Lawn & Pasture Fertilizer 27-0-2 with Iron is a liquid fertilizer designed to quickly feed and green all types of turfgrasses. Because the lawn food formula contains Iron and can be absorbed through both leaves and roots, it can impart a deeper green to grasses overnight! For use on lawns and pastures in any season to feed and revitalize the look of turfgrass.

Directions For Use
For Best Results Read the Entire Label First and Follow Directions Carefully

Getting Started:
 This product is a concentrated liquid fertilizer designed to work in all 12-Volt spray equipment. The fast-acting formula can be used alone or mixed with most herbicides or insecticides for a combination spray as may be desired. Always perform a jar compatibility test with other turf care products before large scale tank mixing.

Where to Use: For use on all types of turfgrass in lawns and pastures.
Coverage: Covers up to 15,000 sq.ft.
Amount to Use: Mix concentrate with water according to the rates below.

Application Guide			
Coverage Area	Amount of Water to Add to Tank	Amount of Product to Add to Tank	Total Spray Solution
6,000 sq. ft.	5 Gallons	1 Gallon	6 Gallons
15,000 sq. ft.	12.5 Gallons	2.5 Gallons	15 Gallons

- Application:**
- Determine area to be treated: Multiply area's length by width and deduct any areas where application is not wanted. This is the total square footage of the area. Calculate amount of Gordon's Tankables Lawn & Pasture Fertilizer 27-0-2 with Iron and water needed to cover area.
 - Mix in sprayer tank: Fill tank to 1/2 the needed volume of water. Add appropriate amount of this product while mixing thoroughly.

- Slowly add in herbicide or insecticide with agitation (Skip this step if not adding a herbicide or insecticide).
- Slowly mix in the remaining amount of water to tank.
- Spray uniformly to area.

When tank mixing with herbicides or insecticides, follow directions on the herbicide or insecticide label. Always make sure that you use a jar test for compatibility before mixing chemicals in your tank.

Fertilizer Timing:
For Cool Season Grasses, refer to the guide below for the number of applications to make and when to apply for best results:

Number of Applications	When to Apply
2	March-April and September
3	March-April, late August-September, and October
4	March-April, May, late August-September, and October-November

For Warm Season Grasses, make applications in early spring through September or every 4-6 weeks. Refer to the guide below for the number of applications to make and when to apply for best results:

Number of Applications	When to Apply
2	May, July
3	April-May, June-July, and August-September
4	April through September-October with 4-6 week interval

DO NOT APPLY NEAR WATER, STORM DRAINS, OR DRAINAGE DITCHES. DO NOT APPLY IF HEAVY RAIN IS EXPECTED. APPLY THIS PRODUCT ONLY TO YOUR LAWN/GARDEN.

Apply only to actively growing turf. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

STORAGE & DISPOSAL:
 Keep from freezing. Do not reuse container. Destroy when empty.
