

# TRUTRACK™

## DEPOSITION & DRIFT CONTROL

### Principal Functioning Agents:

Modified vegetable (seed) oil, Lecithin and Alcohol ethoxylate . . .99%
Constituents ineffective as spray adjuvant . . . . . 1%
Total . . . . . 100%

### DIRECTIONS FOR USE

TRUTRACK is a non-ionic, low foam adjuvant that may be used to enhance the activity and effectiveness of herbicides, defoliants, desiccants, plant growth regulators, insecticides, fungicides and acaricides. This product provides more uniform coverage by decreasing surface tension of spray solutions, thus aiding in penetration. It will improve deposition and retard, but not eliminate, drift by producing a more uniform spray pattern. This product may be used on agricultural, forestry, turf and ornamental, industrial and non-cropland sites. Not for aquatic use.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with TRUTRACK. Use according to the most restrictive label directions for each product in any tank mix.

**COMPATIBILITY:** TRUTRACK is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

**MIXING:** Shake well before using. Fill spray tank half full of water and begin agitation. Add recommended amount of TRUTRACK. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersible granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

**RECOMMENDATIONS:** Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

**DRIFT REDUCTION:** Apply 1-2 quarts per 100 gallons of spray mixture.

**GENERAL USE (air or ground): Defoliants, Desiccants, Herbicides:** Use 1-4 pints per 100 gallons of spray mixture when used as a surfactant/penetrant. Use 12-32 fl oz per acre when used in place of crop oils. **Acaricides, Fungicides, Insecticides, Plant Growth Regulators:** Use 8-32 fl oz per 100 gallons of spray mixture. **Turf, Ornamental and Industrial Spraying:** Use 1-3 fl oz per 5 gallons (1-4 pints per 100 gallons) of spray mixture. For hand-held and backpack sprayers use 1 fl oz per gallon of water. Plant sensitivities to this product have been found acceptable; however, not all species have been tested. Before treating a large area, test on a small area and observe prior to full scale application.

KEEP OUT OF REACH OF CHILDREN

WARNING

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes skin irritation and serious eye irritation. Wear protective eyewear and gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

#### ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Avoid release to the environment.

#### FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. **IF ON SKIN:** Wash with plenty of water. If skin irritation occurs, get medical attention.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store away from incompatible materials. Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

**LIMITED WARRANTY:** Meristem Crop Performance ("MCP") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. MCP and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, MCP and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
