

# Valcheck® III

Non-AMS Water Conditioner,  
Drift Reduction Agent (DRA), Volatility Reduction Agent (VRA)

## Principal Functioning Agents:

Proprietary blend of volatility reducing agent, water conditioning agent and drift reduction polymer.....	42.86%
<u>CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT.....</u>	<u>57.14%</u>
<b>TOTAL .....</b>	<b>100.00%</b>

All ingredients in this product are exempt from the requirements of a tolerance as specified under Title 40, Code of Federal Regulations 180.

**KEEP OUT OF REACH OF CHILDREN**

## PRECAUTIONARY STATEMENTS

READ LABEL BEFORE USE. Avoid breathing in vapors or spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Use personal protective equipment as required.

## FIRST AID

Have the product container with you if calling a poison control center or doctor or going for treatment.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice

**IF ON SKIN OR CLOTHING:** Wash with soap and water for several minutes.

**IF SWALLOWED:** Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing.

**In case of medical emergency, call toll free 1-877-424-7452.**

## STORAGE AND DISPOSAL INFORMATION

**STORAGE:** Store product in a cool, well ventilated place. Keep in original container, tightly closed. Do not reuse empty container. Do not store with food, feed or other materials to be used or consumed by humans or animals. Do not contaminate water supplies. **Store at temperatures between 40°F and 90° F. Shake Well Before Use.**

**DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit [www.acrecycle.org](http://www.acrecycle.org). Dispose of contents/container in accordance with local/national regulations.

## GENERAL INFORMATION

Valcheck III is a multifunctional adjuvant that meets the label requirements of many dicamba applications. Use of the product helps to control the volatility and drift that may occur with the use of certain forms of dicamba. Valcheck III is formulated with an **AMS-free** water conditioner to help maintain herbicide activity with hard water.

## DIRECTIONS FOR USE

Valcheck III may be used as a drift reduction agent (DRA) and volatility reduction agent (VRA) according to the table below. Follow the instructions on the most restrictive active ingredient label. Tank mixtures should only be applied within the label recommendations and state/local restrictions of every product in the tank mixture.

HERBICIDE	MINIMUM APPROVED RATE
XtendiMax® Herbicide with VaporGrip® Technology	11.2 pints per 100 gals (1.4% v/v)
Engenia	11.2 pints per 100 gals (1.4% v/v)

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions has precedence over DIRECTIONS FOR USE referred to on this label. **Tank mix combinations must show that Valcheck III is approved as an adjuvant and/or a DRA and/or VRA before being used as such. This information is available on the respective herbicide tank mix website.**

## MIXING

All spray mixing and application equipment must be thoroughly cleaned before pesticides are applied. In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Fill the spray tank half full of water and start agitation.
2. Add desired rate of Valcheck III to water before adding pesticides.
3. Wettable powders (WP), then flowables (F, DF)
4. Agitate then add anti-foaming compounds or buffers.
5. Liquid and Soluble products.
6. Emulsifiable concentrates (EC).
7. Add remaining water and continue to agitate.

## NOTICE OF WARRANTY:

Seller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the Seller. IN NO CASE SHALL SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER. SELLER MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.
