

WICK™

INDOOR/OUTDOOR ADJUVANT

Principal Functioning Agents:

Proprietary blend of polyoxyalkylene alkyl ethers	33.0%
Other Ingredients.....	67.0%
TOTAL.....	100.0%

*All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

DANGER

Causes serious eye damage.

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling. Wear protective gloves and eye and face protection. Keep product in original container. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison control center or doctor for treatment advice.

IF ON SKIN: Wash with plenty of water. Take off contaminated clothing and wash before reuse.

For Emergency, Spill, Leak, Fire, Exposure, or Accident, Call: CHEMTREC 1-800-424-9300

GENERAL INFORMATION

Wick™ is designed to enhance the spreading and penetration of insecticidal treatments on textile substrates such as carpets, rugs and mattress ticking. Wick can also be used to aid indoor crack and crevice treatments. Wick may also be used in commercial kitchens and on hard surfaces such as but not limited to wood and tile.

DIRECTIONS FOR USE: READ ENTIRE LABEL BEFORE USING. Wick is an indoor/outdoor adjuvant designed to improve the physical distribution and absorption properties of pesticides into fibers, and cracks and crevices, in commercial kitchens, and on hard surfaces.

USE RATE

Add Wick at the rate of 2 fl. oz per gallon of finished spray solution.

MIXING INSTRUCTIONS

Wear impermeable gloves when handling chemicals. Add Wick to the spray until during the filling process while agitation is ceased, to minimize foaming. Once the spray solution has been prepared, secure the spray unit lid and agitate the solution. Small hand unit sprayers may be shaken or swirled for agitation.

Container Use Directions

SPECIAL CAUTIONS

Be cautious with the use of Wick on vertical surfaces where gravitational streaking may damage the appearance or integrity of the material. Do not use if potential damage is unacceptable.

Wick can make smooth areas in wet conditions more slippery, which could promote dangerous conditions. Make targeted applications rather than blanket applications in these situations.

Always follow label directions. Do not allow re-entry to treated surfaces by people or pets until the spray has had sufficient time to dry.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
